AMES is expanding its production facility in Austria

To further improve our production efficiency and maintaining flexibility along with exceptionally short delivery times for our products, we are investing more than one million Euro in expanding our headquarters in Peggau, Austria in the upcoming 10 months.

This investment will enable us to **expand our production space by 500m²**, facilitating the adoption of new manufacturing techniques and equipment, as well as the modernization of our existing infrastructure. The construction work officially began with a ground breaking ceremony on 29th of April.
