

Newsletter No. 20, December 2014

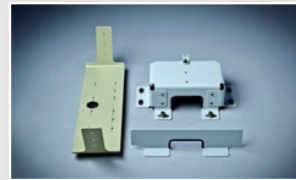

Welcome,

to the 20th edition of 'AMES High', which aims to keep customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

New Products

After introducing various stowage types, AMES has now developed full height stowages for long range aircraft (see picture) including upper attachments and provisions for IFE (VCC) and/or safety equipment etc. In addition we offer a great variety of supporting products including made-up harnesses including connectors, cables, racks and structure parts for IFE upgrades of your passenger cabin.

A full range of cabin products is available at AMES like windscreens, partitions including stowage or doghouses, illuminated cabin dividers, movable class dividers and curtain rails for various aircraft and cabin types including Boeing Sky Interior cabins.

New Projects

A major cabin upgrade and certification project - including EASA STC and FAA / ANAC validation - for the Brazilian Leisure and Low Cost Carrier AZUL has started in September and shall be finished by June 2015.

In total 7ea A330-200 will be equipped with a new interior including all-new seats with personal IFE, new galleys, lavatories, stowages and AZUL brandings. AMES is supporting the program management, engineering, certification as well as the design and production of various customized cabin products including stowages, partitions for increased leg room, customer logos and foldable self service tables.

AZUL launched the first international service between Sao Paulo and Ft. Lauderdale on December 2, 2014.

AMES CAMO

AMES CAMO had a successful 2014 with 75 airworthiness reviews and 32 transitions of large passenger aircraft completed. For non EASA aircraft we have performed 7 EASA compliance reviews to determine the status of an aircraft in regards of EASA regulations. We are happy to emphasize that we have recommended/transitioned aircraft to just about all EASA national authorities and worked successfully with the authority of the Isle of Man, Cayman and Bermuda.

AMES Ireland

Our Dublin Customer Support office continues being managed by David Tierney and supported by Mark O'Grady (Design Engineer). Ms. Fiona Callaghan (University of Limerick graduate) has now positioned to the Dublin office. Fiona spent 12 months in our AMES CAMO office, Neusiedl, Austria. During this time she received extensive training. Fiona's transition to the Dublin office as a CAMO Engineer re-iterates the commitment of the AMES Group to our Irish Customers. Further office expansion is planned.
