

Newsletter No 2, October 2010

Welcome,

to the second issue of 'AMES high', which aims to keep customers, suppliers and employees informed about major changes and developments at AMES in the Design, Production and CAMO fields.

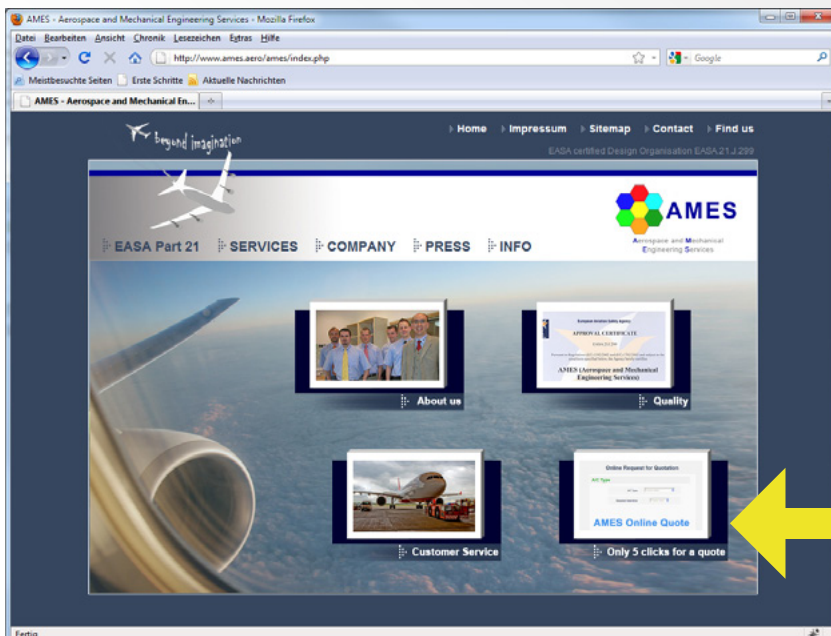

First of all we want to thank you for a large number of positive and encouraging feedbacks to our first issue of "AMES high".

In this second issue we want to draw your attention to a new and in our industry unique functionality of our website.

Every aircraft project start is slow and has a number of administrative burdens to overcome. A clear picture of the scope and a detailed quotation within a short timeframe are obvious advantages. With our new service it only takes 5 clicks and you will receive an offer within days.

This feature provides an overview of the variety of our services and products and will give you a tool to receive an offer or quotation within two working days, study LOPAS within only one. If we do not have a clear picture of your needs, or you are not sure of the product or service required, we will immediately get in contact with you.

Please give it a try: 5 clicks

Regards,
 Daniel Maier, MD AMES PLS
 Walter Starzacher, MD AMES GmbH
 Christian Kogelmann, MD AMES CAMO
