

Newsletter No 3, December 2010

## **Welcome,**

**to the third edition of 'AMES high', which aims to keep customers, suppliers and employees informed about major changes and developments at AMES in the Design, Production and CAMO fields.**

First of all we were honoured to welcome a top level team from GE Capital Aviation Services to Vienna and to our premises in Frohnleiten at the end of September. The purpose of this meeting was to meet the decision makers at the Austrian CAA and to talk about future projects.

### **New Products**

B737 and A 320 partitions with a lead time of only 3 weeks. The use of prefabricated metallic honeycomb panels and an availability of different burn tested decors allows us to deliver new partitions within 3 weeks.

### **New CAMO Service**

AMES CAMO is pleased to announce an "extended" service for aircraft to be imported back into the EU.

In addition to our comprehensive technical support for aircraft transfers, we are able to provide „Holder-ship Agreements" and tax free EU imports using the Austrian Register. An „Extended" import consists of a technical evaluation/recommendation to the Austrian Authority and the necessary tax law import tasks.

Project reference: B737-300 imported from China on the Austrian register and handed on to a Slovak carrier for re-registration in Slovakia. For more information please contact AMES CAMO.

Regards,  
Daniel Maier, MD AMES PLS  
Walter Starzacher, MD AMES GmbH  
Christian Kogelmann, MD AMES CAMO
