

Newsletter No 5, May 2011

**Welcome,**

to the 5th edition of 'AMES *High*', which aims to keep customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

## **Aircraft Interiors Expo 2011 Hamburg - Thank you!**

It was a great experience for us to be part of this outstanding industry Expo and at AMES we are very proud to have received so many visits and a lot of positive responses to our new innovative products, which will set future market standards. From the feedback we have received, we will be back in 2012.

We displayed our newest products and we are pleased to inform you, that we have been overwhelmed by your response.

The first time presented AMES windscreen design with laser engravings and illuminated logo was in the focus of our customer`s interest and we are working right now with two potential launch customers for the implementation of this new idea into their fleets, using this windscreen as an additional marketing tool.

For any further information, please do not hesitate to contact us or visit our website at [www.ames.aero](http://www.ames.aero).

Regards,  
Daniel Maier, MD AMES PLS  
Walter Starzacher, MD AMES GmbH  
Christian Kogelmann, MD AMES CAMO
