

Welcome,

to the 6th edition of 'AMES High', which aims to keep customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

The formation of **AMES Consulting and Training GmbH** will support the strategic growth of the AMES Group.

We are very happy to inform you about the availability of a number of new services we are able to offer thru **AMES Consulting and Training**. This new member of the AMES Group will provide specialised training as well as consulting services in various aviation areas. We offer our professional experience of more than 20 years in different areas of international aviation to support our customers in a wide range of aviation projects. These services will cover EASA Part 21 J and G as well as EASA Part M Subpart G and I requirements. Public funding opportunities and risk sharing options for aviation projects are also part of our services. A detailed legal support for contractual issues as well as for governmental affairs can also be offered by **AMES CaT**.
