

Welcome to the 28th edition of 'AMES High', which aims to keep customers and suppliers informed about major changes and developments at AMES in the Design, Production and CAMO fields.

New Products and Services

Marketing LOPAs within only two working-days.

With our design capabilities and in-house aircraft data we can offer various LOPA designs for most aircraft types within a short lead time. This enables us to support your Engineering and Marketing Department to work efficiently on future cabin configuration options.

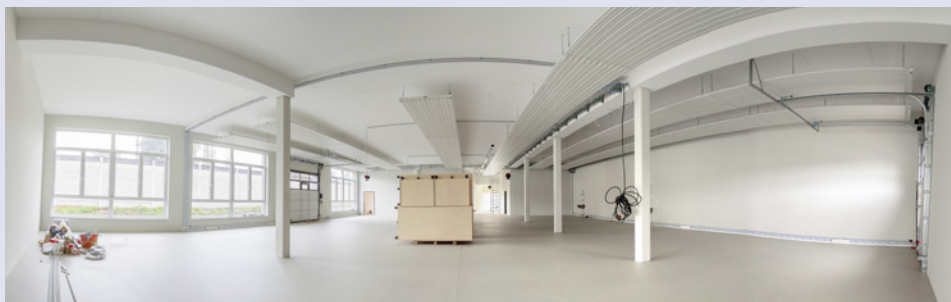

AMES Premium Economy Dividers in various shapes available.

Over the last three years we have developed and optimized a variety of different cabin divider options, both illuminated and non-illuminated, in different sizes and designs. With our flexible design team we are able to develop fully customized options within weeks. Please contact us for any requirements you may have.

New Production Facility takes final shape

The new production facility expansion is gearing up for the production of AMES parts by the end of this year. The expansion includes a total of 550 square meters with over 300 square meters of additional workshop space, 150 square meters of storage and additional offices for our production and design teams. Our modular construction system enables us to further expand within a very short time frame.

This will ensure and improve our lead-times for all AMES cabin products in the future.

The main focus for the services we offer is to be the most flexible ONE STOP SHOP for our customers worldwide. For further details please contact us via e-mail on services@ames.co.at, or see our website on www.ames.aero

NEW!
